

World Laparoscopy Training Institute Dubai is Attracting Surgeons and Gynecologist from Europe and USA

Laparoscopic Training is necessity, regardless of whether it is in a laboratory or in a clinical setting. Dubai is now new destination of laparoscopic training.

DUBAI HEALTHCARE CITY, DUBAI, UAE, August 23, 2017

/EINPresswire.com/ -- Dubai is now becoming a new destination for laparoscopic and robotic surgery training. Laparoscopic and Robotic Surgery Training at World Laparoscopy Training Institute Dubai has been designed in an interdisciplinary manner with a multitude of tracks to choose from every segment and provides you with a unique opportunity to meet up with peers from both industry and academia and establish a scientific network between them.

Surgeons and Gynecologists around the globe concentrated on finding out about the Laparoscopic Practice and its advances; this is a good opportunity to go to attend the training in Dubai and achieve the biggest collection of members from the Minimally Invasive Health sector.

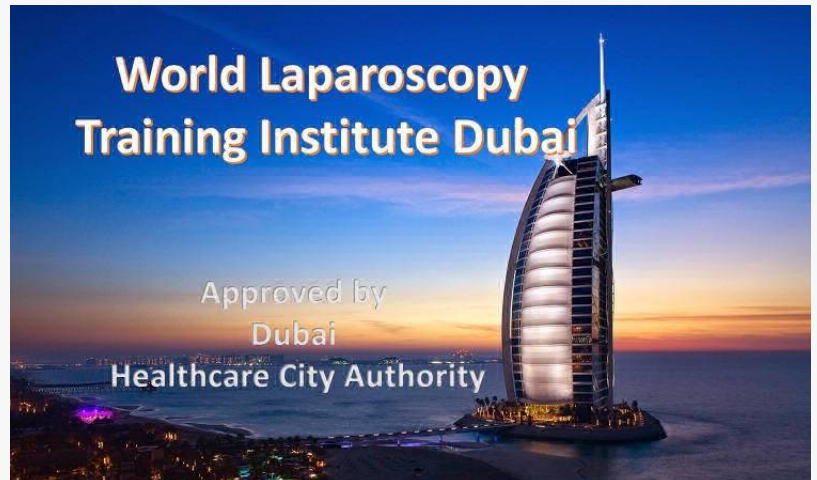

“

Dubai as New Destination of Laparoscopic and Robotic Surgery Training”

According to the United Nations, the global female population accounted for more than 3.64 billion in 2015. Every woman visits a gynecologist at least once in her lifetime either for pregnancy or other complications related to menstrual cycle. Nowadays in most of the gynecological cases laparoscopic surgery is required. The growing number of patients seeking minimal access surgery is likely to drive market growth during the forecast period.

Furthermore, the introduction of user friendly and technically advanced training facility has augmented the adoption of minimally invasive surgical procedures such as laparoscopy, da Vinci Robotic Surgery, endoscopy, and urogynecology. To conclude, the availability of technically advanced products coupled with rising adoption of surgical procedures is steering the global laparoscopic

surgical and gynecological devices market towards experiencing swift growth.

The World Laparoscopy Training Institute at Dubai Healthcare City in Dubai have set up collaboration with the aim of fostering the development of new applications of laparoscopic and robotic surgery. Such collaboration entails the development of a network of internationally renowned minimal access

surgical centres in order to enhance research and development in the field of telemedicine and telesurgery. Prof Dr R K Mishra will be a key figure in linking the UK and the Indian experience, as well as attracting collaborations from the most advanced [laparoscopic surgical centres](#) worldwide.

The great variety of contributions of its faculty makes the World Laparoscopy Training Institute, Dubai one of the most prestigious laparoscopic teaching institution worldwide. In 2010, [World Laparoscopy Hospital](#), Gurugram, India acquired the Da Vinci Si HD dual console system. This innovative Da Vinci system, beyond offering high definition resolution within its camera apparatus, has two parallel consoles, which are of great value for teaching purposes, being able to be operated by two surgeons simultaneously. Now this branch in Dubai started under direction of Dr R K Mishra is attracting Surgeon and Gynecologists from Europe and America.

The [Laparoscopic surgery training](#) course at Dubai Healthcare City Dubai is created and designed in a manner that after this laparoscopic surgery training program surgeons, gynecologists will be able to do all the taught laparoscopic surgery their own on their patients.

The surgeons from the disciplines of General surgery, Gynecology, Urology and Pediatric surgery will stand to gain immensely from this Laparoscopic training program. Underneath the circumstances, an contact with a Structured Training course in an early stage of the career will go quite a distance in succeeding as experts in minimal access surgery.
